CUMULATIVE INDEX TO SERVICE AND REGULATORY ANNOUNCEMENTS

Nos. 1 to 149, inclusive (1914–41),[1] Bureau of Entomology and Plant Quarantine

Compiled by MAUDE A. THOMPSON, *assistant, Division of Domestic Plant Quarantines, Bureau of Entomology and Plant Quarantine*

FOREWORD

The Service and Regulatory Announcements, first published monthly in 1914 and later quarterly, constitute a permanent record of the quarantine and regulatory orders issued under the Plant Quarantine Act of 1912 and certain related acts, including the text of the quarantines and regulations thereunder, the more important circulars, decisions, press notices, and administrative instructions, explanatory of, or bearing on, such quarantines. In addition, items of practical value and historic interest may be traced through reports of public conferences, such as the status of early infestations of a given pest of economic importance even though no Federal quaratine was promulgated. The organization of the present Bureau and of the preceding Bureau, Administration, and Board charged with administering the act are recorded in the announcements as far back as 1927. Press notices of the more important personnel appointments will also be found.

Some State quarantine matters published in the announcements include citations to the Supreme Court decision concerning the validity of State quarantines in relation to the Federal Plant Quarantine Act. Summaries of the State quarantines that are enforced under the provisions of the terminal inspection procedure will also be found.

The cumulative index of these announcements as originally compiled in 1934 by Horace S. Dean to cover the years 1914–33, inclusive, has proved to be extremely valuable. Plant quarantine inspectors and administrative officers have found in it a ready reference to requirements of the plant quarantines of this Department, as promulgated in the above 20-year period, as well as the import restrictions of a number of foreign countries. The present compilation, which brings the former work forward and includes material through 1941 classified under similar subjects from various angles of approach, is the result of a demand on the part of the administrative officers and inspectors for a complete cumulative index. There will be found as heretofore several lists valuable in themselves because of their completeness. For example, each quarantine is listed with all title changes, revisions, amendments, and administrative instructions pertinent thereto that have been issued, together with their effective dates.

In a few instances items which were not published in the announcement series have been listed, including for the most part notices and circulars issued by the Federal Horticultural Board before publication of the series was begun.

Anyone using this index will usually find it more expedient to refer directly to the major quarantine topic concerned; e. g., should he wish to find reference to a circular dealing with the importation of nursery stock by mail, he would turn to Nursery stock, plant and seed quarantine (No. 37) and locate the desired information under "mail, importation by." For information as to treatment requirements for a given pest, he would turn to the quarantine pertaining to that pest.

The abbreviations "H. B.," "P. Q. C. A.," "B. P. Q.," and "B. E. P. Q." are used to designate circulars in the numbered series published by the Federal Horticultural Board, the Plant Quarantine and Control Administration, the Bureau of Plant Quarantine, and the Bureau of Entomology and Plant Quarantine, respectively, of which a complete numerical list will be found. "S. R. A." as used in the index is an abbreviation for Service and Regulatory Announcements.

Mr. Dean has been freely consulted in the work of compiling the present index, and his experience and advice have been of real value.

---

[1] This index brings forward, with some revisions, the "Cumulative Index to Service and Regulatory Announcements Nos. 1 to 117, inclusive (1914–33)" compiled by Horace S. Dean, Plant Quarantine Inspector, Division of Foreign Plant Quarantines, Bureau of Plant Quarantine.

P. Q. C. A. 256, effective December 2, 1929. Administrative instructions. Release of certain areas designated as infested under the Mediterranean fruitfly quarantine regulations. (Modifies P. Q. C. A. 251) (obsolete) 1929–221

P. Q. C. A. 257, December 17, 1929. Instructions to inspectors re interstate shipments of celery from Florida (obsolete) 1929–222

P. Q. C. A. 258, effective December 26, 1929. Administrative instructions. Containers authorized for interstate movement of Florida host fruits and vegetables. (Modified by P. Q. C. A. 266; obsolete) 1929–222

P. Q. C. A. 259, effective January 8, 1930. Administrative instructions. Elimination of screening requirement with respect to potted plants under the Asiatic-beetle and the Asiatic-garden-beetle quarantine (obsolete) 1930–2

P. Q. C. A. 260, effective January 8, 1930. Administrative instructions. Elimination of screening requirements with respect to potted plants under the Japanese-beetle quarantine (obsolete) 1930–4

P. Q. C. A. 261, effective January 23, 1930. Administrative instructions. Diversion restrictions on Florida host fruits and vegetables modified. (Modification of P. Q. C. A. 254; superseded by P. Q. C. A. 272) 1930–16

P. Q. C. A. 262, effective January 23, 1930. Administrative instructions. Period of movement of host fruits and vegetables from Florida to Southern and Western States extended to February 28, 1930. (Modifies P. Q. C. A. 254; superseded by P. Q. C. A. 272) 1930–17

P. Q. C. A. 263, effective February 3, 1930. Administrative instructions. Modification of the restrictions on the movement of Florida host fruits and vegetables from the District of Columbia, and the States of Maryland and Pennsylvania to nearby points in Virginia, West Virginia, and Ohio. (Supersedes P. Q. C. A. 253; revoked by P. Q. C. A. 280) 1930–19

P. Q. C. A. 264, effective February 6, 1930. Administrative instructions. Extension of production and harvesting period of Florida cantaloups to June 15, 1930. (Superseded by P. Q. C. A. 269 and P. Q. C. A. 272) 1930–20

P.Q. C.A. 265, February 8,1930. Supplement No. 2 to instructions on the disinfection of nursery products for the Japanese and Asiatic beetles. (Supplemented P. Q. C. A. 224; supplemented by P. Q. C. A. 333; superseded by B. P. Q. 359) ..... Not in S. R. A

P. Q. C. A. 266, effective February 11, 1930. Administrative instructions. Waterproof fabric mesh bags authorized as containers for Florida host fruits and vegetables. (Modifies P. Q. C. A. 258; obsolete) 1930–20

P. Q. C. A. 267, effective February 19, 1930. Administrative instructions. Production of cotton in and the interstate movement from eradication areas in Florida (obsolete) 1930–21

P. Q. C. A. 268, effective February 21, 1930. Administrative instructions. Release of west Florida from Mediterranean fruitfly quarantine restrictions (obsolete) 1930–22

P. Q. C. A. 269, effective February 26, 1930. Administrative instructions. Extension of production and harvesting period of Florida citrus and other host fruits to April 15, 1930. (Supersedes P. Q. C. A. 243 and P. Q. C. A. 264; modified by P. Q. C. A. 272; obsolete) 1930–23

P. Q. C. A. 270, effective March 3, 1930. Administrative instructions. Florida host vegetables produced outside eradication area authorized to be shipped by express in less than car lots (obsolete) 1930–24

P. Q. C. A. 271, effective March 4, 1930. Administrative instructions. Additional method of sterilizing Florida citrus fruit by refrigeration authorized. (Modifies P. Q. C. A. 246; obsolete) 1930–24

P. Q. C. A. 272, effective April 9, 1930. Administrative instructions. Modification of production, harvesting, and shipment restrictions on Florida host fruits and vegetables. (Supersedes P. Q. C. A.'s 254, 261, 262, 264; modifies P. Q. C. A. 269; modified by P. Q. C. A.'s 273, 280, 282, 286, and 288; obsolete) 1930–65

P. Q. C. A. 273, effective April 10, 1930. Administrative instructions. Spraying requirements for grapes produced in the eradication area of Florida. (Modifies P. Q. C. A. 272; obsolete) 1930–66

P. Q. C. A 274, April 10, 1930. List of true bulbs, corms, and tubers. (Superseded by B. E. P. Q. 394) 1930–59

P. Q. C. A. 275, effective April 10, 1930. Administrative instructions. Reshipment of certain Florida host fruits and vegetables within Southern and Western States authorized (obsolete) 1930–67

P. Q. C. A. 276, effective April 14, 1930. Elimination of summer host plants in eradication area in Florida will not be required (obsolete) 1930–67

P. Q. C. A. 277, April 22, 1930. Entry of narcissus bulbs for propagation. (Superseded by B. E. P. Q. 376) 1930–71

P. Q. C. A. 278, effective July 1, 1930. Limitations on special-permit plant material entered for propagation purposes under regulation 14 of quarantine No. 37, nursery stock, plant, and seed quarantine. (Supersedes P. Q. C. A. 218) 1930–71
revised, effective July 17, 1931 1931–108

P. Q. C. A. 279, April 26, 1930. Administrative instructions. Re disposition of ripening citrus fruits, avocados, persimmons, host vegetables, and bananas in the eradication area of Florida during the host-free period (obsolete) 1930–68

Circulars, H. B.'s, P. Q. C. A.'s, B. P. Q.'s, and B. E. P. Q.'s—Continued. *Year and page*

P. Q. C. A. 280, effective April 30, 1930. Administrative instructions. Shipment of Florida peppers and lima and broad beans to Central States, and reshipment of host vegetables within Northern and Central States authorized. (Modifies P. Q. C. A. 272; revokes P. Q. C. A. 263; obsolete) 1930–69

P. Q. C. A. 281, effective June 1, 1930. Administrative instructions. Removal of fumigation requirements for cotton lint moving from certain counties of Texas and New Mexico. (Modified by P. Q. C. A. 298 and P. Q. C. A. 300; obsolete) 1930–79

P. Q. C. A. 282, effective June 21, 1930. Administrative instructions. Extension of production and harvesting period of Florida grapes and host vegetables. (Modifies P. Q. C. A. 272; superseded by P. Q. C. A. 288) 1930–70

P. Q. C. A. 283, July 1, 1930. Summary of Cuban plant quarantine laws. (Superseded by B. E. P. Q. 519) 1930–114

supplement No. 1, December 31, 1930 (revocation of prohibition against importation of fruits and vegetables from Fla.) 1930–190

revised January 15, 1932 1932–19

supplement No. 1, December 1, 1932 (certification requirements for seed potatoes) 1932–123

Mediterranean fruitfly quarantine (No. 68):
administrative instructions: *Year and page*
additional method of sterilizing Florida citrus fruits by refrigeration authorized. (P. Q. C. A. 271, effective March 4, 1930. Modifies P. Q. C. A. 246. Obsolete) 1930–24
authorization of transportation of Florida host fruits and vegetables from the District of Columbia to nearby points in Virginia. (P. Q. C. A. 253, effective November 13, 1929. Superseded by P. Q. C. A. 263) 1929–219
containers authorized for interstate movement of Florida host fruits and vegetables. (P. Q. C. A. 258, effective December 26, 1929. Modified by P. Q. C. A. 266. Obsolete) 1929–222
diversion of Florida products at southern points. (P. Q. C. A. 244, effective September 7, 1929. Obsolete) 1929–158
diversion restrictions on Florida host fruits and vegetables modified (P. Q. C. A. 261, effective January 23, 1930. Modifies P. Q. C. A. 254; superseded by P. Q. C. A. 272) 1930–16
elimination of summer host plants in eradication area of Florida will not be required. (P. Q. C. A. 276, effective April 14, 1930. Obsolete) 1930–67
extension of production and harvesting period of Florida cantaloups to June 15, 1930. (P. Q. C. A. 264, effective February 6, 1930. Superseded by P. Q. C. A. 269 and P. Q. C. A. 272) 1930–20
extension of production and harvesting period of Florida citrus and other host fruits to April 15, 1930. (P. Q. C. A. 269, effective February 26, 1930. Supersedes P. Q. C. A. 243 and P. Q. C. A. 264; modified by P. Q. C. A. 272. Obsolete) 1930–23
extension of production and harvesting period of Florida grapes and host vegetables. (P. Q. C. A. 282, effective June 21, 1930. Modifies P. Q. C. A. 272. Obsolete) 1930–70
extension of shipping period for Florida eggplants and peppers. (P. Q. C. A. 236, effective June 14, 1929. Obsolete) 1929–116
Florida fruit and vegetable shipments limited as to destination. (P. Q. C. A. 229, effective May 16, 1929. Modified by P. Q. C. A. 240. Obsolete) 1929–101
Florida host vegetables produced outside eradication area authorized to be shipped by express in less than car lots. (P. Q. C. A. 270, effective March 3, 1930. Obsolete) 1930–24
interstate movement of imported fruits and vegetables via Florida ports. (P. Q. C. A. 232, effective May 23, 1929. Obsolete) 1929–109
press notice 1929–108
modification of eradication area designated in quarantine regulations. (P. Q. C. A. 245, effective September 17, 1929. Obsolete) 1929–158
modification of production, harvesting, and shipment restrictions on Florida host fruits and vegetables. (P. Q. C. A. 272, effective April 9, 1930. Supersedes P. Q. C. A.'s 254 261, 262, and 264; modifies P. Q. C. A. 269; modified by P. Q. C. A.'s 273, 280, 282, 286, 288. Obsolete) 1930–65
modification of production and harvesting period of Florida grapes. (P. Q. C. A. 288, effective July 24, 1930. Modifies P. Q. C. A. 272. Obsolete) 1930–95
modification of the restrictions on the movement of Florida host fruits and vegetables from the District of Columbia and the States of Maryland and Pennsylvania to nearby points in Virginia, West Virginia, and Ohio. (P. Q. C. A. 263, effective February 3, 1930. Supersedes P. Q. C. A. 253. Revoked by P. Q. C. A. 280) 1930–19
movement authorized of sterilized host fruits and vegetables from Florida to other Southern and Western States. (P. Q. C. A. 254, effective November 21, 1929. Modified by P. Q. C. A. 262; superseded by P. Q. C. A. 272. Obsolete) 1929–220
movement of sterilized avocados from Florida to other Southern and Western States authorized. (P. Q. C. A. 286, effective July 24, 1930. Modifies P. Q. C. A. 272. Obsolete) 1930–94
movement of tomatoes and peppers. (P. Q. C. A. 228, effective May 11, 1929. Obsolete) 1929–100
period of movement of host fruits and vegetables from Florida to Southern and Western States extended to February 28, 1930. (P. Q. C. A. 262, effective January 23, 1930. Modifies P. Q. C. A. 254; superseded by P. Q. C. A. 272) 1930–17
period of shipment of non-citrus fruits and host vegetables from protective zones in Florida extended for season of 1929. (P. Q. C. A. 233, effective May 23, 1929. Modified by P. Q. C. A. 238. Obsolete) 1929–109
press notice 1929–108
production of cotton in, and interstate movement from eradication areas in Florida. (P. Q. C. A. 267, effective February 19, 1930. Obsolete) 1930–21
re disposition of ripening citrus fruits, avocados, persimmons, host vegetables, and bananas in the eradication area of Florida, during the host-free period. (P. Q. C. A. 279, April 26, 1930. Obsolete) 1930–68
release of certain areas designated as infested under the fruit-fly regulations (P. Q. C. A. 256, effective December 2, 1929. Supplements P. Q. C. A. 251. Obsolete) 1929–221
release of west Florida from quarantine restrictions. (P. Q. C. A. 268, effective February 21, 1930. Obsolete) 1930–22
instructions to postmasters 1930–23
press notice 1930–21
removal of restrictions on cowpeas. (P. Q. C. A. 237, effective June 27, 1929. Obsolete) 1929–117
press notice 1929–117
removal of restrictions on destination of limes from Monroe and Dade Counties (P. Q. C. A. 240, effective July 23, 1929; modifies P. Q. C. A. 229. Obsolete) 1929–139
press notice 1929–139
removal of restrictions on string beans. (P. Q. C. A. 242, effective August 12, 1929. Obsolete) 1929–141
press notice 1929–140
reshipment of certain Florida host fruits and vegetables within Southern and Western States authorized. (P. Q. C. A. 275, effective April 10, 1930. Obsolete) 1930–67
shipment of Florida citrus fruit prior to October 1. (P. Q. C. A. 243, effective September 1, 1929. Superseded by P. Q. C. A. 269) 1929–158
press notice 1929–155
shipment of Florida peppers and lima and broad beans to Central States, and reshipment of host vegetables within Northern and Central States authorized. (P. Q. C. A. 280, effective April 30, 1930. Revokes P. Q. C. A. 263; modifies P. Q. C. A. 272. Obsolete) 1930–69
press notice 1930–68

Mediterranean fruitfly quarantine (No. 68)—Continued. *Year and page*
administrative instructions—Continued.
shipment of grapes from cold-storage plants. (P. Q. C. A. 238, effective July 2, 1929; modifies P. Q. C. A. 233. Obsolete) 1929–135
